SUMMARY

Frontend-focused software developer with 3 years building production web applications: user interfaces in React and Next.js with TypeScript, HTML/CSS and Tailwind, shipped on Vercel and Netlify. I also work across the stack (Node.js APIs, PostgreSQL, Supabase) when the product needs it, and add AI and automation where they solve a real problem (LLM agents, RAG, n8n). NASA Space Apps 2024 national winner.

TECH STACK

Frontend	React, Next.js, TypeScript, HTML/CSS, Tailwind
Languages	TypeScript, JavaScript, Python, SQL
Deploy & Cloud	Vercel, Netlify, Supabase, AWS
Backend	Node.js, Express, REST APIs, webhooks, PostgreSQL, MongoDB
AI & Integrations	LLM APIs (OpenAI, Anthropic, Gemini), LangChain, LangGraph, RAG, n8n, Google Workspace APIs, Meta APIs
Practices	Git, Git Flow, code review, CI/CD, Scrum, clean code

EXPERIENCE

Product Engineer — RollingCode Studio Oct 2024 – Dec 2025

- Built React and Next.js frontends and UI features for client web projects, plus the Node.js backends behind them.

Full-Stack Developer (Volunteer) — Fundación Líderes de Ansenuza Apr 2025 – Present

- Leading the foundation's digital transformation: rebuilt its web platform (Next.js, Prisma, PostgreSQL) and internal tools.

Software / AI Engineer — RepuestoShop Dec 2025 – Present · Remote

- Build and maintain internal tools and customer-facing automation for an auto-parts e-commerce, integrating Meta APIs and the product catalog.
- Designed a multi-agent assistant (LangGraph) with RAG over scraped catalog data to answer customer questions.

Freelance Full-Stack Developer — Private client (accounting firm) Nov 2025 – Aug 2026

- Co-built a tax-deadline management platform for the firm: approval flows, change history and Google Calendar/Gmail integration. Running in production.

Instructor, Process Automation with n8n — Poder Judicial de Tucumán Sep 2025 – Oct 2025

- Designed and taught a 20-hour course on n8n, APIs and automation workflows for court staff; presented the automation strategy to leadership.

PROJECTS & AWARDS

Proofy — Solana hackathon, 2026: Web app with an AI agent that turns a contract's scope into verifiable milestones and releases escrow payments on CI/CD evidence. proofyai.vercel.app

NASA Space Apps 2024 — National Winner: ExoGames, national winning project (Buenos Aires hackathon, virtual). National competitor again in 2025.

EDUCATION

B.S. Information Systems Engineering — Universidad Tecnológica Nacional (UTN-FRT)

Feb 2022 – Dec 2027 (expected)
